

Jessica Mayer  
Assistant Education/Community Outreach Co-ordinator

Jessica is a university student at Algoma, finishing her bachelor of Community Development, and she also holds a diploma in Social Service Work. She is a very friendly, open-minded, and non-judgmental person who enjoys spending time with her child watching movies and going camping.

Jessica grew up in the outdoors fishing, hunting, and canoeing around Porcupine Lake when she was a teen.

“I find it very disappointing that a once beautiful lake has now become so grungy that no one willing to enjoy it,” said Jessica. She believes that there is much potential in our community and because we live in a beautiful rural area with a rich history—it is about time we begin to embrace and respect that.
