

Meagan Stringer - Assistant to Special Projects

"Meaghan grew up in South Porcupine to a big family with a love for the outdoors. Growing up, her father spent time contributing to the community and was influential in the creation of the Rotary Trail between South Porcupine and Timmins, now named the Ross Stringer Memorial Trail in his honour.

Meaghan regularly bikes around Porcupine Lake and shares the area with family and friends. Having spent the last four summers working for the Ministry of Natural Resources and Forestry, Meaghan has been able to use her skills to build partnerships between the Stewardship Youth Ranger Program and industry and community partners in Timmins and Area, including the

Friends of the Porcupine River Watershed.

She is currently enrolled in her fourth year at Ryerson University in the Media Production program. She respects and values what the board members and community stakeholders bring to the table and is hopeful in remediation efforts for the Porcupine Lake. "
