

## Fish consumption advisory

The advisory tables provide fish consumption advice based on the level of contaminants found in fish according to their location, species and length.

## Porcupine Lake

Whitney Twp., Cochrane Dist. (48°29'06"N 81°11'17"W)

Consumption advisories in the tables below represent the maximum number of meals per month recommended for each species/size range indicated.

Consult the help page if you are eating multiple species of fish or fish from multiple locations.

Advisories may be provided for specific species and/or size ranges which are not legal to possess. Learn more about Ontario's [recreational fishing regulations](#) before going fishing.
